

Terms & Conditions for using www.applyifi.com

Thank you for visiting Applyifi.com. Your use of this website is governed by the terms and conditions mentioned in this document. The management reserves the right to change, modify, include or delete any of the terms.

Applyifi.com® is a private platform for startups to create their profiles, which is accessible to multiple investors, mentors or accelerators/incubators. On a selective basis, Applyifi may create a detailed scorecard for the startup. For this, the Applyifi team may call or meet the startup. The scorecard given by the startup will be a subjective perspective of the Applyifi team, and the startup may or may not agree with the scoring.

If a startup gets a scorecard, it will be available for registered investors, mentors or accelerators/incubators to review, even if the startup does not agree with the scorecard. The startup however has the option of not displaying the profile and the scorecard, and if the entrepreneur so chooses, the profile will not be displayed.

For investors, accelerators and incubators, Applyifi reviews applications and provides a 36-point scorecard.

Users of this website may register as “startups”, “investors”, “accelerators”, “incubators”, or “mentors”.

The Applyifi scorecard is a subjective independent analysis of the strength of a startup's business case, as perceived by the Applyifi team. Applyifi is an independent actor and will not make any investments in any of the startups registered on the site. This scorecard is merely our take on the business based on the information presented by the startups.

Applyifi is in no way accountable for any false information provided in the startup profiles, or for any issues pertaining to or resulting from investments. Any investments resulting from the Applyifi platform are made at the sole discretion of the investor and startup and we recommend that both parties seek independent advice and research before making decisions.
